Introduction	E-122
MF Series	E-124
MFD Series	E-128

RoHS RoHS-Compliant

Cross Flow Fans

●Additional Information●
Technical reference → Page F-1

Cross flow fans are suitable for cooling circuit boards or other applications requiring wide and uniform air flow such as air curtains.

Features

Cross flow fans deliver wide, uniform air flow.
These fans provide right-angle air flow and a rectangular shape, allowing for installation in corners and space saving.

Types of Cross Flow Fans

●: Standard Type ■: Alarm Type ◆: Pulse Sensor Type

Series	Features	Power Supply Voltage	Impeller Length [mm (in.)]	
			300 (11.81)	150 (5.91)
AC Cross Flow Fans MF Series → Page E-124~E-127	●AC input cross flow fans ●The MF Series is recognized by UL/CSA Standards. CE Marking is used in accordance with the Low Voltage Directive. (Certification status differs according to the product.) ●RoHS-Compliant The MF Series conforms to the RoHS Directive that prohibits the use of six chemical substances including lead and cadmium.	Single-Phase 100/110/115 VAC	●	●
		Single-Phase 200/220/230 VAC	●	●
DC Cross Flow Fans MFD Series → Page E-128~E-131	●DC input cross flow fans ●RoHS-Compliant The MFD Series conforms to the RoHS Directive that prohibits the use of six chemical substances including lead and cadmium.	24 VDC	●■	●■
		48 VDC	●◆	●◆

System Configuration

An example of a system configuration with the **MF** Series.

MF Series

Peripheral Equipment (Sold separately)
① **Thermostats**
(→ Page E-133)

AC Power Supply (Main Power Supply)
(Not supplied)

Example of installing the finger guard
(The photo shows two finger guards, **FG915D**.)

Accessories (Sold separately)
② **Finger Guards**
(→ Page E-145)

No.	Product Name	Overview	Page
①	Thermostats	Contact is ON and OFF in accordance with thermostat's set temperature. Using a fan with a thermostat provides on/off control of the fan.	E-133
②	Finger Guards	This guard prevents fingers and foreign objects from entering the rotating side of the fan.	E-145

●Example of System Configuration

●The system configuration shown above is an example. Other combinations are available.

Product Number Code

AC Cross Flow Fans

MF 9 30 B - B C

① ② ③ ④ ⑤ ⑥

① Series	MF: MF Series
② Frame Size	9: 90 mm (3.54 in.)
③ Impeller Length	30: 300 mm (11.81 in.) 15: 150 mm (5.91 in.)
④ Letter Designation	Blank: Motor is on left when viewing the mounting holes B: Motor is on right when viewing the mounting holes
⑤ Power Supply Voltage	B: Single-Phase 100/110/115 VAC D: Single-Phase 200/220/230 VAC
⑥	C: Built-in Capacitor

DC Cross Flow Fans

MFD 9 30 B - 24 A

① ② ③ ④ ⑤ ⑥

① Series	MFD: MFD Series
② Frame Size	9: 90 mm (3.54 in.)
③ Impeller Length	30: 300 mm (11.81 in.) 15: 150 mm (5.91 in.)
④ Letter Designation	Blank: Motor is on left when viewing the mounting holes B: Motor is on right when viewing the mounting holes
⑤ Power Supply Voltage	24: 24 VDC 48: 48 VDC
⑥ Additional Functions	A: Low-Speed Alarm, Contact Alarm Type S: Pulse Sensor Type

General Specifications

Item	Specifications
Insulation Resistance	100 MΩ or more when 500 VDC megger is applied between the windings and the frame after continuous operation under normal ambient temperature and humidity. (MFD Series: 10 MΩ or more, 250 VDC megger, MFD915-48, 24A, 48S, MFD930-48, 24A, 48S: 10 MΩ or more, 500 VDC megger)
Dielectric Strength	Sufficient to withstand 1.5 kVAC at 50 Hz applied between the windings and the frame for 1 minute after continuous operation under normal ambient temperature and humidity. (MFD Series: 500 VAC at 50 Hz, 1 minute)
Temperature Rise	45°C (81°F) or less measured by the thermometer method after the temperature of the motor case has stabilized after continuous operation under normal ambient temperature and humidity. (MFD Series: 15°C [27°F] or less)
Operating Voltage Range	MF Series: ±10% of the rated voltage MFD Series: ±10% of the rated voltage
Insulation Class	MF Series: UL, CSA: Class A [105°C (221°F)], Class E [120°C (248°F)] MFD Series: Class E [120°C (248°F)]
Overheat Protection	MF series has built-in thermal protector (automatic return type). Open: 120±5°C (248±9°F), Close: 77±15°C (170.6±27°F) MFD series has an overheat protection circuit.
Ambient Temperature	-10~+60°C (+14~+140°F)
Ambient Humidity	85% or less (non-condensing)
Color	MF Series: Motor: Dark gray, Fan case: Black MFD Series: Motor: Black, Fan case: Black, Flange: Dark gray
Materials	Impeller: Aluminum Casing: Steel Motor case: Die cast aluminum
